

PUBLIC NOTICE

During Early Voting for the City of Devine municipal elections, it was discovered by the City's Voting Clerk, Dora Rodriguez, and her Election Judges, that the certified list of registered voters for the City of Devine was not correct. The certified list was provided to the City by the Medina County Elections Administrator. By statute, the Elections Administrator has the duty to provide the City with a certified list of voters. The list of voters provided to the City listed voters as residing in City Council Districts in which they actually did not live.

When the residency error was discovered, the Voting Clerk and her staff reviewed the list of voters provided by the Elections Administrator. There were over **201** voters whose residency was inaccurately listed. After reviewing the sign-in sheets for voters, it was determined that six voters who actually lived in District 2 were not given ballots for the District 2 election contest. This problem has been reported by the Voting Clerk to the Elections Division of the Texas Secretary of State.

Because of the incorrect list of voters provided to the City by the Medina County Elections Administrator, there may be a slight delay in the voting process. Now that they are aware of the problem, the Voting Clerk and Election Judges are taking the necessary time to determine the correct residence of each voter.
