Boil Water Notice for Community Public Water Systems

11/19/2026

Due to no water or low pressure in our system, the Texas Commission on Environmental Quality has required the City of Devine public water system to notify all customers to boil their water prior to consumption (e-g, washing hands/face, brushing teeth, drinking etc.) Children, seniors, and persons with weakened immune systems are particularly vulnerable to harmful bacteria and all customers should follow these directions.

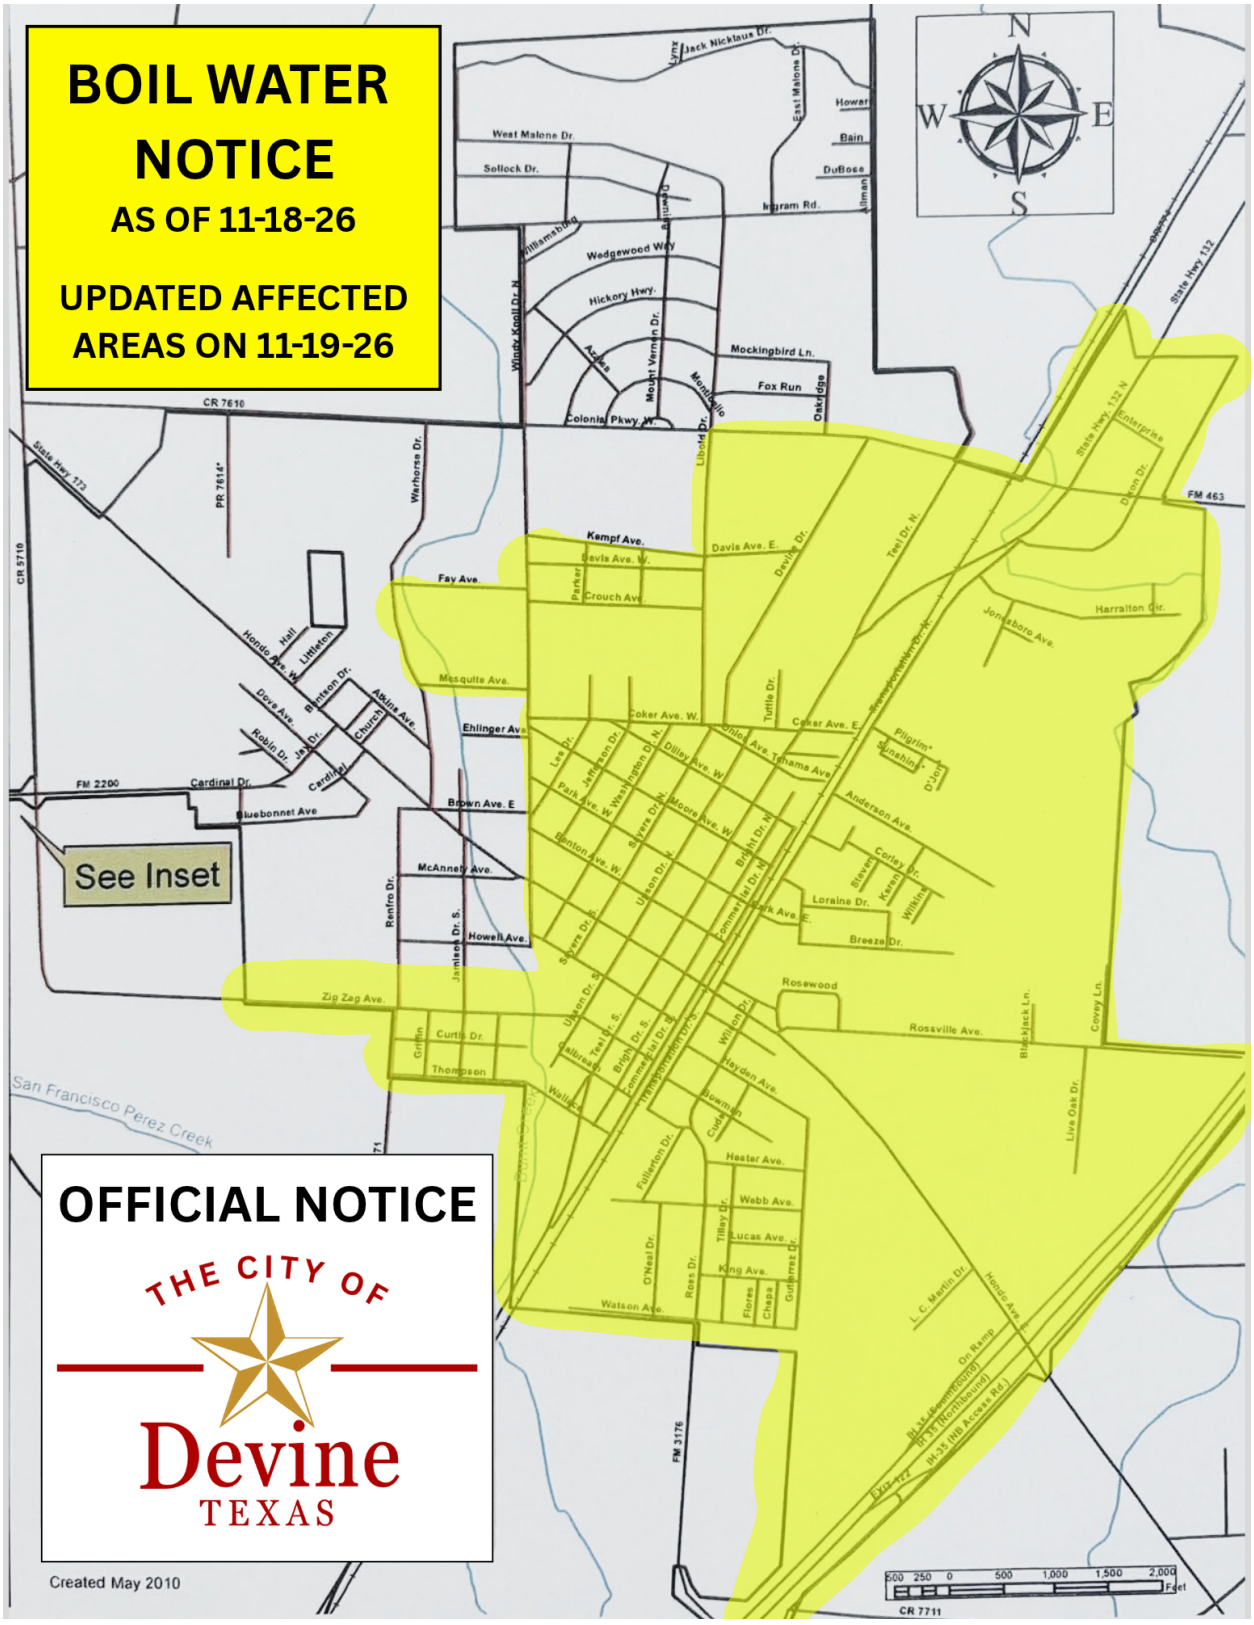

To ensure destruction of all harmful bacteria and other microbes, water for drinking, cooking, and ice making should be boiled and cooled prior to use for drinking water or human consumption purposes. The water should be brought to a vigorous rolling boil and then boiled for two minutes.

Individuals may purchase bottled water or obtain water from some other suitable source for drinking water or human consumption purposes.

When it's no longer necessary to boil the water, the public water system officials will notify customers that rescinds the boil water notice in a manner similar to the notice.

Please note that the boil water notice is in effect for effected customers **ONLY.**

If you have any questions concerning the matter, you may contact City of Devine Public Water System ID#1630006 at 303 South Teel Dr. Devine, TX 78016 (830)663-2804 or you can contact Director of Public Works, Pete Sanchez, at (210)289-1882.
